

## Let's support the earthquake victims by making quilts!

Massive earthquakes occurred in Tohoku and Kanto areas in Japan on March 11.

We've been deeply troubled by the overwhelming damage in these areas.

We'd like to do something for the disaster victims and concluded that the best thing we, quilters can do is to make quilts for them because quilts comfort people by their softness and colors as well as being useful for warming. In such devastated situations, it would be wonderful to have a soft, cuddly quilt.

We'd appreciate your help to support the sufferers who lost their family, home or everything.

Here is the guideline to make quilts for them.

\* size: 1m x 1.2m

\* There are no rules about the design, techniques and material for the top.

\* For the backing, please use soft flannel or double gauze. You may find these as material for babies.

\* If you tie your quilt, please use only thread, without buttons nor beads, etc. to avoid babies' accidentally swallow.

\* Please avoid plastic basting fasteners for basting and invisible thread for quilting.

\* If you include your message, please write it on a 15cm x 10cm piece of white fabric and sew it on the **back side** of your quilt.

Quilts don't have to be new. Quilts you made before are welcome if they are clean, without torn, blot, etc. When you send your quilt at hand, you don't need to follow the above guideline.

We'd appreciate your sharing this project with your quilting friends.

### **Attention:**

Please send the quilts through post office,  
not by courier such as UPS, Fedex, etc,

and be sure to write this both on your invoice and package.

### **Tohoku Earthquake Relief Aid (Shien-busshi)**

#### **No Commercial Value**

And please don't declare high value.

**By the end of July**, please send quilts to:

Yasutoshi Kishimoto
